Product Specifications

MMDU-30

Medical Waste On-Site Disposal Unit

Suitable for on-site disposal of medical waste in small hospitals and clinics, processing 1-2 kilograms of medical waste per hour

Production Specification

Equipment Model No.	MMDU-30
Dimensions (L*W*H)	625 mm * 710 mm * 900 mm
Overall Weight	110 kg
Installed Power	3.5 kW
Treatment Capacity	1-2 kg/h ($\pm 10\%$)
Operation And Control	PLC control, automatic process
Operating Pressure	0.33 Mpa
Disinfection Temperature	≥ 135 °C
Disinfection Duration	≥ 5 min
Microwave Frequency	2450 (+/-50) MHz
Microwave Generator Power	1.25 kW
Manpower	No specialized operator / ONE
Equipped with : Weighing system Print system Alarm system Exhaust dedusting system	

* Customizable power supply and processing capabilities
